Hi pete,

Thank you for your report. In order to be complete and actionable, a DMCA takedown notice must have a few additional details.

- Currently your notice does not provide working links to content found on GitHub. Please revise and resend your notice to include working URLs that will allow us to locate the allegedly infringing content.

We would strongly suggest that you read through our [Copyright - DMCA Takedown Policy](#) and our [Guide to Submitting a DMCA Takedown Notice](#) to acquaint yourself with the way GitHub

implements the DMCA notice-and-takedown process and to get a better sense of how best to present your notice.

After you've revised your report to include the required details, please make sure to resend the entire DMCA takedown notice, and not only the corrected sections. You may reply to this email with your new DMCA notice, or file a new one through our [Copyright claims form](#). Once we've received your complete notice, we'll review it expeditiously.

Let us know if you have any questions.

Regards,  
GitHub Trust & Safety
